Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

I support the Sunset Review process and agree that any unnecessary and/or redundant regulation should be discontinued. Based on my experience, obtaining my license in Texas has not helped or hindered opportunity for work. One would think that liability insurance would be discounted because of the licensure program - but insurance companies do not see it that way.

If the TBPG stays, great, if the TBPG goes, I save a few hundred bucks a year.

One would hope that the "good" geoscientists keep getting the work and the "bad" geoscientists do not.

Any Alternative or New Recommendations on This Agency: If the agency stays, great. If the agency gets axed, I won't lose sleep over it.

My Comment Will Be Made Public: I agree
