Subject: The changes you are wanting to make

1/ I think if you take away the on hands for testing your allowing any smart person to obtain a license and won't know how to even plumb and then it's going to be a bigger mess than what you think it is now the test shows that the person knows what he is doing

2/ you are also making it to where the price for plumbers are going to drop drastically to where you won't be able to survive

3/ we are professionals we take continuing education to better out selves and to make it to where we are not sick or get diseases to cut table out is going to be very bad
