Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I am opposed to discontinuing the Texas Board of Licensure for Professional Medical Physicists and the Medical Radiologic Technologist Certification Program (Issue 3 in the May 2014 report). These entities are a vital service in providing protection to individuals as well as the public health. Also, these entities make certain only registered technologists can prescribe ionizing radiation to the general public.

Any Alternative or New Recommendations on This Agency: By 2015, the Joint Commission will require certification of all radiologic technologists at accredited institutions. This same standard should be pushed through other institutional organizations/agencies.

My Comment Will Be Made Public: I agree
