Submitted on Tuesday, June 3, 2014 - 12:54

Agency: DEPARTMENT AGING AND DISABILITY SERVICES DADS

First Name: Kim

Last Name: Elswick

Title:

Organization you are affiliated with:

City: Houston

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or
Opposed:
Tell the Commission:

We would need the same individualized care plans provided by the SSLC's from private ICF's.

Penalties for safety violations in private ICFs have no consequences. Why?

Inspections of private ICFs are not comprehensive and don't ensure the safety and welfare of our loved ones. We need inspections that mirror the SSLC requirements.

Day Habilitation Programs are poorly organized, staffed by people with little or no training to support the disabled, offer little in the form of vocational skill development, are frequently conducted in unsafe environments, and are not individually focused to support varying disabilities.

Private ICF homes are not required to provide high quality community interaction activities.

The Commission's cost data is faulty. Private ICF costs don't reflect medical services provided and paid by Medicaid. We want them to reexamine this data with a more critical eye. We want apples to apples evaluations, not apple to orange evaluations.

Any Alternative or New Recommendations on This Agency:

Making the public aware of the SSLC's is key. There are so many families who have loved ones with special needs and have nowhere to turn. They are in distress and need help. They have no idea the SSLC's even exist. Enrollment is not offered to them! If it was offered, enrollment would be higher, the schools would be more populated and costs would go down as income for residential placement would go up!

My Comment Will Be Made Public: I agree
