Your Comments About the Staff Report, Including Recommendations Supported or Opposed: Physicians are leaving Texas in alarming numbers because of the draconian measures being adopted by the Board of Medicine to prevent physicians from practicing medicine. Stop placing shackles on the hands of physicians by legislating medical practice and care. Allow physicians to practice medicine the way they were taught in medical school and by their specialty boards. Stop criminalizing physicians! The vast majority of physicians entered medicine for humanitarian purposes!

Any Alternative or New Recommendations on This Agency:

Provide full transparency to physicians and the public at large regarding ALL proposals pending before the Board of Medicine.

Refrain from targeting solo practitioners for providing productive and useful therapeutic modalities which are not necessarily considered standard of care but provide health and healing and doing no harm.

Refrain from targeting solo practitioners period in an effort to force them into large groups or hospital based practices.

Stop unfairly attacking physicians for political and in some cases personal purposes.
