Subject: Form submission from: Public Input Form for Agencies Under Review (Public/After Publication)

Submitted on Friday, June 27, 2014 - 20:15

Agency: UNIVERSITY INTERSCHOLASTIC LEAGUE UIL

First Name: Lee Ann

Last Name: Lee

Title:

Organization you are affiliated with:

City: Crosby

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed: It is extremely important that ECG's become part of sports physicals in Texas. My son's friend, Cody, died in the last month of his Sr year in high school due to a condition which may have been identified, had he had such a screening. Since that time, we have become increasingly aware of the fact, his death was not an isolated, rare occurrence. Sadly, we hear of this great loss happening on a regular basis. Providing this simple, painless, quick, and cost effective screening can indeed save lives. A base line screening such as an ECG can provide families with information to seek further medical evaluation, and have hope to prevent such tragedy in the lives of their children. Screen them all! To do anything less is unacceptable.

Any Alternative or New Recommendations on This Agency: It is extremely important that ECG's become part of sports physicals in Texas. My son's friend, Cody, died in the last month of his Sr year in high school due to a condition which may have been identified, had he had such a screening. Since that time, we have become increasingly aware of the fact, his death was not an isolated, rare occurrence. Sadly, we hear of this great loss happening on a regular basis. Providing this simple, painless, quick, and cost effective screening can indeed save lives. A base line screening such as an ECG can provide families with information to seek further medical evaluation, and have hope to prevent such tragedy in the lives of their children. Screen them all! To do anything less is unacceptable.
