Your Comments About the Staff Report, Including Recommendations Supported or Opposed: Abolishing the LMRT program in the state of Texas is not the right action to take. In 120 hours the NCT cannot provide the quality care an LMRT can give. The most important component in this field is patient care and having more clinical hours to do in the LMRT will program will help the tech be better in the field.

Any Alternative or New Recommendations on This Agency: Get rid of the NCT, temporary license and make one pass or fail exam.
