Your Comments About the Staff Report, Including Recommendations Supported or Opposed: Please understand in regarding whats going on in Department of Family & Protective Services you must lesson to parents. Based on case loads they have it's do to many cps workers are taking the laws in their own hands filing false affidavits in courthouse. It's hard to understand but it's truth many have removed child wrong way, some are given choices to parents give up their rights for living children they can keep child they are caring if parents refuse be force to lose all children once there born. These cps workers believe as no one lesson to truth as long as judge helps them its ok abuse system brakes laws in many cases. Each day false reports made as long this is gone on Department well always have cases loads under false pretence refuse to go by company policy Family Code Chapter 261 it's states making false reports is State jail felony. In order to correct this matter cps workers that refusing to go by laws must be taken out of offices at once.

Any Alternative or New Recommendations on This Agency: Start going by laws start protecting child from neglect of their duty in office. No one is above laws as state funded agency they receive funding to protect child abuse and neglect not put them were abuse and neglect is going to happen only for funding.
