City: Texas City

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or
Opposed:
I oppose eliminating all the Instructor's license- Proper training is the foundation to our industry. A teacher must first learn to teach. There are important factors that go into learning the skill of training others. Being able to break down a skill or it's theory can be a difficult task if one does not understand the steps and sequencing for the student to be able to apply the skill or theory. Every student learns in different ways. Just because one can do the skill does not mean they can teach the skill. There is more to being an instructor than just "teaching"; classroom management, student learning styles, sanitation and disinfection and state testing are just a few of the issues that a licensed instructor faces everyday in the classroom. Not having a specialist instructor's license and ensuring the instructors know the fundamentals of teaching would crumble our industry. As an Instructor in a community college, we go through many hours of professional development and continuing education in order to bring the best out in our students.

Any Alternative or New Recommendations on This Agency: Leave the instructor license as is
