Subject: Board hearing on consolidation of TBPTE to TDLR

Dear commission,

I am writing as a constituent to request that you consider blocking the proposal that would consolidate the Texas Board of Physical Therapy Examiners into the TDLR as proposed by the sunset staff and commission.

I have practiced in Texas for 20 years and received my bachelors from UTHSCSA and my masters from TWU. I have worked in private practice and outpatient orthopedics all 20 years and consider this stability to be a wonderful gift. I have especially appreciated the opportunities my education and this state have provided me.

As a result, I oppose the consolidation of our already cost effective examination board into an entity that may not have the time, resources, and expertise to oversee the medical complexity of our profession.

I encourage you to consider the appropriate action to take, and hope that our TBPTE board is not jeopardized in any way.

Thank you
