Your Comments About the Staff Report, Including Recommendations Supported or Opposed: The objective of the TBPG is to ensure that only qualified and duly licensed PGs offer and perform professional geoscience services Texas. It is also the TBPG's objective to ensure that all licensed PGs and registered Geoscience Firms provide geoscience and geology services in conformance with the TBPG's Code of Professional Conduct, the Geoscience Act, and all related Rules promulgated by the TBPG. The fact that no one has been disciplined is a testament to the quality of those within the organization. I have been randomly audited twice without violation. This is a testimony to how I view the organization and what it stands for in the sense that I strive and we all strive to remain in good standing.

Any Alternative or New Recommendations on This Agency: None
