Agency: TEXAS MEDICAL BOARD

First Name: Jerry

Last Name: McDonald

Title: Retired

Organization you are affiliated with:

Email:

City: Leonard

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

My only comment is that I am wondering why my complaint against the medical doctors I sent in was never addressed.

It has been over a year now and have yet to hear a word.

I am a 60-year-old male who was horribly butchered by a local ear nose and throat plastic surgeon, whom afterwards falsified, changed my medical records and even forged my initials on documents. He then had several of his colleagues, including the referring physician falsify and change their records, one even billed me and Medicare for an Endoscopy he never even performed. I said in my letter I have audio recording of that incident and it is extremely clear that he never performed a nasal endoscopy on me, but no one wants to hear it or even respond, even the hospital covered for this doctor and yet could not produce any endoscopic pictures, because there were none. This is the worst medical corruption I, my family, friends or anyone that hears this story has ever heard of in their life, it's just horrific and criminal and I cannot get anyone to even respond. I guess that's the part that I don't understand. I have been hearing repeatedly that the medical board is there to protect doctors and not patients, which is terribly frustrating and disappointing to hear. I never have liked seeing anyone lose their careers, however, these doctors should all have their license revoked, there is just no question about it, no slap on the wrist, no suspension or fine, but total revocation of medical license. These men are nothing but criminals and that is unacceptable in this profession! Maybe that is why I have not had a response from the medical board, because the negligence, obstruction of justice, fraud, Medicare fraud is just so obvious that the board would half to revoke. Maybe that's the reason for not addressing this. It may be true, the board is there to protect doctors, not patients.

Any Alternative or New Recommendations on This Agency: I would just like to see honesty and integrity. As corny as that may sound, just plain and simple honesty and doing the right thing, not protecting colleges, not covering for others not making excuses, just plain simple honesty, integrity and real justice and compassion!

My Comment Will Be Made Public: I agree
