City: San Antonio

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed: Patient safety can be impacted by poor technique, inadequate positioning which can lead to repeat examination and jeopardizes quality health care specialty in children's. THE KNOWLEDGE AND CONGNITIVE SKILLS UNDERLYING THE INTELLIGENT PERFORMANCE MUST BE EQUIVALENT TO THAT OF THE GENRAL RADIOLOGIC TECHNOLOGIST. Finally without any a clinical training requirement or competency assessment , there are no quality controls in place to evaluate the level of clinical competency and provides a lower level of care which can trained radiologic technologist performing diagnostic procedures.

Any Alternative or New Recommendations on This Agency: None.

My Comment Will Be Made Public: I agree
