Subject: Public Input Form for Agencies Under Review (Public/After Publication)

Agency: TEXAS MEDICAL BOARD

First Name: Mary

Last Name: Meneses

Title: Radiologic Technologist

Organization you are affiliated with:

Email:

City: San Antonio

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

After being in the medical field for 40 plus years, I have taught many student both in x-ray and sonography. I have found that many times the field they were training in and hoping to excel at was not what they expected, so the LMRT program allows them to experience being in the field without having to go to school for so long and without the financial hardship that many of them cannot deal with. Also once they find they enjoy being part of the medical field they are able to continue and become a Medical Radiologic Technologist.

Any Alternative or New Recommendations on This Agency:

If testing is the issue or part of the issue, testing should be condensed to include some of each topic and a percentage of each area must be passed in order to be qualified as an LMRT. This would not only simplify testing but also make the annual relicensing much easier. Thank you

My Comment Will Be Made Public: I agree
