Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I have been a cosmetology instructor for 19 years and teaching is not just about teaching someone to cut hair. It is about going that extra mile to make sure students that have learning disabilities understand so they can pass a state test. Its about spending time finding ways to encourage students to attend school guiding them to find confidence that they can do something do better themselves.I spent time ,money and many hours learning how to teach how to guide and how to encourage. I made mistakes along the way and still spend time and money learning new way to teach.You cannot just expect just anybody that holds a cosmetology license to have this ability without education to do so.

Any Alternative or New Recommendations on This Agency: Stop picking on the cosmetology industry and trying to make us look like what we do don't require much education!

My Comment Will Be Made Public: I agree
