Subject: Public Input Form for Agencies Under Review (Public/After Publication)

Agency: TEXAS BOARD PROFESSIONAL GEOSCIENTISTS TBPG

First Name: Michael

Last Name: Miller

Title: Professional Geologist

Organization you are affiliated with: Quantum Environmental, City Survey, Bedrock Remediation

Email:

City: Austin

State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or
Opposed:

Geologists / professional geologists are the most likely scientists to understand, evaluate, and articulate data regarding climate change; I believe there is a push to silence. The closure of the Board is intended to diminish this voice. It is obvious, and it is wrong, do not let it happen, this is important.

We are already in a battle to clean up the environment, and it is difficult.

This will also hurt that cause, basically a struggle. It is wrong, do not let it happen. I will speak if necessary. I will speak. Miller (M. R.

Miller, PG)

Any Alternative or New Recommendations on This Agency: Get more in the trenches, the field, see what we are doing, be in touch with environmental site assessment and remediation in a more hands on approach. Do not let them shut you down, do not fall for it, stand up and stay true to science, protect your world, have a kind heart, not just a money head. Miller, (M. R. Miller, PG)

My Comment Will Be Made Public: I agree
