Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I do not want to see the changes that the Sunset report is pushing for. I believe that there are changes that can happen to improve what we have in place at this time. I'm positive that if the TSBPE was allowed to keep monies that is generated in fines, everything that is stated in the Sunset report can be remedied.

Any Alternative or New Recommendations on This Agency:

I'm not sure that the Sunset report really has the citizens best interest at heart. I can see how making it easier for an individual to obtain a plumbing license in Texas, or easier to open a new plumbing business, will NOT be good for the folks of this great state. You will have flooring companies for example hiring a Master Plumber that's got no managing experience dealing with the public. People that operate a plumbing business in THIS state need to know what the heck they are doing, and the safety of the people of Texas is not worth the risk that the Sunset report is proposing. They are asking for a "transition period", well that same time can be used to start making the same changes mentioned.

I'm sorry but I believe that this Sunset report is WRONG!!!

My Comment Will Be Made Public: I agree
