To: Sunset Advisory Commission

Re: Sunset Staff Report

I am writing this letter in support of the recommendations made by the Sunset Advisory Committee regarding the NorthSTAR program.

I agree that this program is outdated, and immediate changes do need to be made to provide better services to the population of our county.

As a LPS Intern I am able to interact daily with the participants of the NorthSTAR program. There is a huge need for this model to be updated for optimum mental health care for the population we serve.

Respectfully,

A handwritten signature in dark ink, appearing to read "Sammer Nagra", is written over a horizontal line.
