Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

As a Registered Professional Land Surveyor practicing in the State of Texas, I believe strongly that a board made up of Professional Surveyors and public members is the best means of regulating the profession of land surveying to protect the health, safety, welfare and property of the citizens of Texas.

I oppose a combined board. As a surveyor, I am not qualified to direct/impose decisions affecting the profession of engineering, nor are engineers qualified to direct/impose decision making over the profession of land surveying. A combined board would be a dilution and would not provide adequate services for both professions.

Any Alternative or New Recommendations on This Agency: I recommend that the Texas Board of Professional Land Surveying be given the opportunity to address the concerns listed in the Sunset Staff Report and remain an independent licensing agency.
