Your Comments About the Staff Report, Including Recommendations Supported or
Opposed: I am disappointed about the recommendation to eliminate the Texas Board of Professional Geoscientists. The TBPG is a state agency that provides a valuable and necessary public service protecting the health, safety and welfare of Texans. Geoscientists are responsible for activities such as evaluating floodplains, potential health hazards associated with contaminated sites, geologic risks to infrastructure, and planning to ensure our state has adequate water supplies.

Any Alternative or New Recommendations on This Agency: I strongly recommend that the Sunset Commission allow this agency to continue.

My Comment Will Be Made Public: I agree
