Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

Breeding must be highly regulated.

Proof this is needed :

is in in the amount of intakes to shelters in TX EVERYDAY!

Is in the increased health issues in dogs today.

Major proof is in the increased cases of aggression the past few years.

We must be strict on breeding policies

Any Alternative or New Recommendations on This Agency: There needs to be a vetting process. A federal or state mandated course that must be taken..and passed before a breeding license is issued. No breeder may breed more than on breed. They must specialize in just one breed.

My Comment Will Be Made Public: I agree

Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I oppose the recommendation to abolish the Licensed Breeders Program. Please keep the licensing in place. I am a cruelty investigator and can not begin to tell you the horrible situations that are out there. This is one small way to help those of us that are trying to stop the unnecessary cruelty and neglect of animals.

Any Alternative or New Recommendations on This Agency: Keep the license breeders program. And while you are at it. Make horse slaughter illegal and stop the trucks at our borders from taking horses to Mexico for slaughter.

My Comment Will Be Made Public: I agree
