Your Comments About the Staff Report, Including Recommendations Supported or

Opposed: I am shocked that the idea of not having licensed professional respiratory therapist is even brought up. I have Alpa 1 COPD emphysema and am on the lung transplant list. Myself and many others like me depend on these professionals. And no Alpha 1 is not caused by smoking it is a genetic disorder. Shame on you for even thinking this. The government needs to stop getting into things that will help people. What happened to all the business about wellness. Are we not part of that.

Any Alternative or New Recommendations on This Agency: Keep the professionals is all i can say we depend on them. Stop the government from getting involved in things they know nothing about.

My Comment Will Be Made Public: I agree
