To Whom It May Concern:

Good Day!

I am Romeo Paguyo, Physical Therapist at Texas Orthopedic Hospital at the Medical Center. I am writing this email to raise my concerns regarding the the TDLR combined health professions. I firmly believe that Physical Therapists, who provide direct patient care, should be supervised directly by a Board who are well represented by the same profession. Members, who clearly understands the importance of our role as medical providers, should act as our representative. Our field of profession involves a continuous research and study for improvement, we need representatives who continually understands our role and importances for patient care.

I oppose any proposal to combine my license with any other professions. We are uniquely different from one another, and our individualized importance must be well represented for the simple fact that we provide direct patient care.

Respectfully yours,
Romeo Cyril Paguyo
