Your Comments About the Staff Report, Including Recommendations Supported or Opposed: When a commission is appointed to help families/youth with needs, they forget what the mission is. The mission should not be to remove what we currently have to help our families but to improve what we do have. We encounter corrupt systems in every area of government; however, systems can be improved, changed and corrected.

Any Alternative or New Recommendations on This Agency: Assign people to these commissions that are appointed by the people that understand what is really occurring. Continue to seek input from families that will be affected by these changes before the change is implemented. Finally, seek information from other States in America that make these types of programs work. Texas seems to be one of the worst States when it comes to benefits for children/youth/families with needs.

My Comment Will Be Made Public: I agree
