Your Comments About the Staff Report, Including Recommendations Supported or
Opposed:

I am a licensed professional geoscientist working in the petroleum industry.

Though my work does not require licensing, I have always valued having a professional license, especially given the cyclic nature of the petroleum business, to allow me the option of working in an environmental role, should I ever leave my current role. I believe the state of Texas should continue to license professional geoscientists for the protection of the citizens and the environment.
