To whom it may concern:

I have been in the plumbing industry since 2001 and having been governed by the plumbing board all of these years I believe that in my experience the board is very professional and a necessary entity in preserving the health and safety of our great state. Furthermore I believe myself and my contemporaries in the Plumbing industry would be greatly affected by this matter. We have a respect for our governing board and do not want to answer to TDLR respectively. The plumbing board is the greatest governing ordinance for plumbers in the nation and it would not be in the best interests of our state to dissolve it.

Any Alternative or New Recommendations on This Agency: I believe that the best way for us to continue to train new plumbers is through the state board.
