Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I do support creating the Behavioral Health Executive Council to save resources and ensure we have consistent licensing and regulation of our professions. Please make sure there are 9 voting members of the proposed Behavioral Health Executive Council rather than just five in order to ensure that our different professional perspectives are represented we need two of each professional at the voting table. Having only one representative from each profession and one publicly appointed member will dilute each professions ability to ensure our unique and specialized standards are represented.

Any Alternative or New Recommendations on This Agency: Ensure all members of the proposed Behavioral Health Executive Council are voting members.

My Comment Will Be Made Public: I agree
