Your Comments About the Staff Report, Including Recommendations Supported or  
Opposed: I fully support everything the state board is doing and has done for the state of Texas regarding plumbing. I feel as if the plumbing examination is honestly easy enough for anyone to pass. If anyone has put in the required 8000 hours in order to take their exam, they should be well qualified to pass it. Making something as a plumbing license easier for people to obtain would only make things more complicated for everyone. More people would be allowed to work and install work with little to no experience on what they are handling. This would cause so many mishaps and lawsuits that it would be unreal. Please think about what you're trying to do.

Any Alternative or New Recommendations on This Agency: I believe they would be more sufficient if they were given more employees and resources to help them speed their process of examinations.

My Comment Will Be Made Public: I agree
