Subject: Retain TBPTE

To whom it may concern:

My name is Taylor Randle and I am a licensed physical therapist for a outpatient and orthopedic company in the south Houston, Clear Lake, Texas. I graduated with a Doctor of Physical Therapy degree in 2015 and I have served this community as a Physical Therapist over the past 5 months. I am an active member in the American Physical Therapist Association and Texas chapter as well. I am also a Certified Orthopedic and Sports Manual Therapist and Certified Strength and Conditioning Specialist.

I am writing this email to state that I am in opposition of the consolidation of TBPTE into TLDR. I am in support of the current TBPTE structure for the next 12 years as recommended. The current arrangement is efficient and cost effective which are important pillars in business. Also, the patient's best interest seems to be of less concern under this consolidation. At the end of the day, it is the patient that is the most important thing here. In our field, Patient Safety is the number one goal. According to the Sunset Staff Report on the Health Licensing Consolidation Project, patient safety is likely to ultimately be compromised with this consolidation.

I hope that you find this email as well as the support of the numerous clinicians that serve this community sufficient enough to retain TBPTE as the well manage, cost effective, and efficient individual commodity that it is and allow us to continue to better serve this community and making a difference one person at a time. Thank you for your time.

Blessings,
Taylor Randle, PT, DPT, COMPT, CSCS
Physical Therapist
ProActive Physical Therapy Centers, PLLC
