Your Comments About the Staff Report, Including Recommendations Supported or Opposed: This was created back in 1980. Folks have been paying taxes on this since 1980, and we have never gotten a drop of water out of this. Money keeps going out, but there is nothing but a dam and not much water there. A pipeline was supposed to be put in to get water to Moore County and that has never happened either. The land can not be hunted on because in the agreement in the 80's the landowners who sold the land asked for first right of refusal for grazing rights. Things were totally different 36 years ago than what they are now. Moore County is the largest county that is contributing to this and we have the least amount of voting rights. If we are paying for something and getting nothing for it, maybe it can be donated to a state program for them to take over and use it for camping or recreational use. There has been over 47,277,859.86 tax dollars collected for this project since 1980 & our little community could sure use that money for something that would be more beneficial for the community.
