Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

Thank you for the opportunity for public comment.

I support your wanting more transparency at the Railroad Commission (as I said in my oral testimony, Monday, August, 22). I also stated my increasing disappointment in the Railroad Commission due to my experiences and those of family and friends. Your recommendations address some of my concerns. Thank you.

I also support the further improvements suggested by Public Citizen, The Sierra Club, and Texas Campaign For The Environment. These were presented on August 22 as well.

Any Alternative or New Recommendations on This Agency: The only recommendation not mentioned, to my knowledge (except in my oral testimony), was regarding climate change. I want it on the record, that at least some Texans, including myself, are very concerned that climate change does not seem to be addressed at all by the Railroad Commission, and in fact a lot of Texas State Government. Pretending this serious problem does not exist, will not make it magically go away, it will only make us more vulnerable, less able to adapt, and cost us a lot more money in the long term.

My Comment Will Be Made Public: I agree
