Your Comments About the Staff Report, Including Recommendations Supported or  
Opposed: I hold several other professional geoscientist licenses and take pride in the fact that Texas has a program. I  
use my license regularly in the filings and forms for the Texas Railroad Commission as required for several  
regulations. The TBPG is viable to integrity of my work as well as allowing public recourse for grievances to poor  
practice of the profession of geology.  
I am against the abolishment of the TBPG.

Any Alternative or New Recommendations on This Agency: Possibly the TBPG could use some public information.

My Comment Will Be Made Public: I agree
