Your Comments About the Staff Report, Including Recommendations Supported or Opposed: This is in regards the recommendation in removing or taken away the Cosmetology Instructor License. I don't see reasons why would Sunset recommends this kind of suggestions to TDLR? this is a livelihood were talking here? our jobs depends for us to have this license. I've earned this license with dignity and respect for the industry. It took me years of learning through school, colleges, training, workshops, to become a great public educator. A license Instructor represents a person that teaches an individual to become a license operator. Which is totally the opposite. As a License Instructor I don't only teach but I'm trained to identify a learner by the way they learn, the way they understand and use the appropriate accommodations for each learner, we deal with special ed students, 504 students, ELL students and all that becomes part of our Instructor License.

Any Alternative or New Recommendations on This Agency: I recommend for Sunset just to leave us alone and let us work, as it is right now America has a high rate of unemployment due to the Corona Virus pandemic and now you Sunset wants to add more to the unemployment just because you find it... it's not important ? This license is a profession just like a license doctor, license nurse, a license broker etc and I don't see them getting hit by no one ... only us we get hit all the times ... It's about time you leave the Cosmetology industry alone

My Comment Will Be Made Public: I agree
