State: Montana

Your Comments About the Staff Report, Including Recommendations Supported or Opposed: Absolutely maintain the guidelines or there will insurmountable pet populations in Texas that will be beyond manageable... Your rescues are not working overtime just to help the ones that are in the worse need..... There needs to be more strict guidelines on both ends - not releasing the guidelines to create more problems and challenges.....There are not enough as it is!

Any Alternative or New Recommendations on This Agency: The country of Holland has a program that works and works well! If each state adopts the program that this country maintains, the pets who need assistance get what they need without the demands of the current kill shelters that America has in place.....Therefore, kill shelters would no longer be necessary and could become the 'shelters' they were meant to be! This insanity needs to stop! Holland has strict guidelines for ALL breeder facilities and licensing fees to be paid by all breeders... The licensing fees pay forward to pay for all spay and neuter (free due to the fees paying for this service). This curbs the so called unwanted pets...We need as a country to become proactive!

My Comment Will Be Made Public: I agree
