Your Comments About the Staff Report, Including Recommendations Supported or Opposed: My Son, Noah Samuel Sanchez has repetitively been abused by his Mother and it seems that nothing has been done stop or prevent further injuries to the child because of internal politics. When it was simply unexplained busing at the age of 1 then cigarette burns and belt marks at the age of 2. Then escalated to Noah receiving blunt force trauma to his face smashing out his 2 front teeth with radial fractures on the teeth, leaving a seamless cut from the tip of nose, upper lip (Impact Point) , lower Lip, chin, throat, and chest After evidence tampering within a state agency was not only exposed and documented they retaliated against me and refuse to help the child Noah Samuel Sanchez. If a state employee receives money, bribes, or batter and trade the safety of children they need to be held accountable per their actions at the highest level of prosecution. When Noah is DEAD it will be far to late, then what will be the excuses(he Fell). "We had no idea will not work at this point." Preventive measures must be taken to protect and save our children. No more excuses only resolutions!

Any Alternative or New Recommendations on This Agency: To actually do their job. Prevent child abuse from escalating when the abuse is documented per medical records and hospital photos but the injuries to the child leave life long physical and emotional scars. Stop tying to be in local politics and take a stance as a State Agency by not allowing influence by friends of friends ect..... Stop tampering with evidence to dictate to outcome of a case. Rather set the standard in regards to the quality of human life.
