Your Comments About the Staff Report, Including Recommendations Supported or  
Opposed: N/A

Any Alternative or New Recommendations on This Agency: Hello. I would like to comment saying that I think that the LCRA's review process for septic field permitting is too strict. I was denied such a permit as the boring process that was done on my property wasn't at the exact spot where the septic field was to be. Instead it was done at the edge of my less than one acre property, which is uniform in nature. Now I must clear a path on my undeveloped property in order to provide a way for the boring machine to get to the designated area to obtain a permit. This may not be the correct place to voice a concern such as this but thought I would try anyway. Thank you for any consideration made in this regard.

My Comment Will Be Made Public: I agree
