Subject: TBPG

I am writing in support of TBPG and the professional geoscientists licensed through the board. I have been a licensed PE since 1973 (since 1988 in TEXAS) and I have the greatest respect for the TBPE and TBPG. Such boards provide the ethical base for the professionals they represent as well as the necessary enforcement of rules. The geoscientists I have worked most closely with are all licensed through TBPG.  
PLEASE retain this valuable entity.
