Your Comments About the Staff Report, Including Recommendations Supported or Opposed: The Texas State Plumbing Board has done a great job in helping protect the Health and Safety of the citizens of Texas. The Board has helped raise awareness of the dangers of improper plumbing. The testing system helps to make sure applicants are ready to become licensed plumbers. The inspectors do an effective job in holding plumbers and companies accountable for their actions. As well as attempting to cut down on illegal work done by non licensed individuals.

Any Alternative or New Recommendations on This Agency: The only recommendation I would have is to grant them additional funds to hire more inspectors and people to enforce the codes and speed up the testing process.
