Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I think that combining barber and cosmetology would be great. When I worked the beauty schools, we had a lot of students who wanted to do both. On the other subject about removing the instructor licence, who is going to teach the students on cosmetology or barbering? You have to have instructors to teach sanitation, infection, all chemicals, A&P, and everything that goes with the knowledge of knowing hair, skin, and nails. Its not just picking up a book and think you know what you are doing. Someone who is not taught by the right licenced people could really in danger the people they are working on. Instructors play such an important role in the industry. For the people who think this is not important, why don't you spend a few days in a beauty school or shadow a licenced hairdresser, nail technician, or anesthetic and then you will see. Thank you
