Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

1/The earthquake threshold of the current 4.0 mag is too high...should be 2.0 for damage begins to occur at 2.5
2/Agency should be re-named because railroads are no longer involved 3/ Hire more inspectors 4/ TX RR
Commissioners should not be allowed to take campaign money from the industries they regulate!

Any Alternative or New Recommendations on This Agency:

Not sure if this is new: O&G and coal/uranium mining promotes and regulates.

Promoting should be in a separate agency from regulating.

Penalty fines are too low...making it easier just to pay fines than follow the rules.

My Comment Will Be Made Public: I agree
