Your Comments About the Staff Report, Including Recommendations Supported or Opposed: My two bits: There are equal or more state employees than county service officers. All of a sudden we have more different regions, directors, coordinators, assistants, assistant to assistants, and so on. The head/director of TVC and assistants have incorporated many other service departments, quite a large bureaucracy within. Presentations and awards is a ruse and not for the people that make it happen, us. How many more awards is TVC going to create to award their in-office employees. After all everyone is a winner. No losers. And those skids are not funny, if we wanted to see a game show we would have brought our TV. They are not funny.

Any Alternative or New Recommendations on This Agency: Yes, plant your feet in having two (dose) RO's as before. Regional directors with assistants and assistants to the assistants are now getting away from the three (tres) pound monkey on the back to a thousand (mil) pound gorilla on every bodies back.

Let's start cutting at the top before we cut those in the "trenches" making your numbers at the RO's. We need leaders that know what a claim is, how all works, and aware of the development process. There is more to claims than been charming, manly handshakes, and thinking you know all. Lets look at the payroll for people that are not really needed, other cost cuts, and see how we may be able to continue this great tradition of having our annual state CVS0 conference.

My Comment Will Be Made Public: I agree
