Your Comments About the Staff Report, Including Recommendations Supported or Opposed: The need to screen every child before allowing them to participate in physical activities at school is life sustaining! We require parents to get immunizations before children go to school to protect them and with heart issues sometimes being a silent killer, this should be a no brainer! SCREEN THEM ALL, losing one child when we have these technologies in my opinion is negligible!

Any Alternative or New Recommendations on This Agency: This shouldn't just be in Texas but in the complete 50 states.

My Comment Will Be Made Public: I agree
