State: Texas

Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I opposed the Sunset of TAPB. The TAPB serves as a platform to assure that all geologists who practice environmental geology and who are registered with the Texas Commission of Environmental Quality have the qualifications and experience necessary to perform in the state of Texas. I have been in the environmental industry sine 1988 and welcome the opportunity to be recognized by an organization such as the TAPG. The TAPG is a necessity for the environmental consulting family who dedicate their lives evaluating and protecting Texas' groundwater resources.

Any Alternative or New Recommendations on This Agency: Increase professional dues.

My Comment Will Be Made Public: I agree
