To Whom It May Concern,

I am writing about the abuse that I "Connie Stuppy" received from Texas Medical Board, on November 17, 2017 also March 2, 2018

Two Board members heard the case they were Jayaram Naidu, MD, and Michael E. Cokinos, Nancy S. Elmudady represented Board Staff and prepared this Remedial Plan. Dr. Charles Carter Gregory was represented by William J. Granberry attorney.

When first spoke with Nancy Elmudady, after receiving Texas Medical Board letter August 25, 2017, to come to T.M.B. on November 17, 2017 at 9:00am for an Informal Settlement conference/show compliance. During this hearing a staff attorney will present the facts of the case and the licensee will be given an opportunity to respond. There was no staff attorney in this meeting with me. Speaking with Nancy Elmudady, advised her, that I would be sending my letter in to Texas Medical Board, Nancy Elmudady, advised me, that the Board would prefer, Mrs Stuppy, that you come in and speak since you made the complaint. I told Nancy Elmudady I had to get back with on coming out. I called and spoke with Nancy

Elmulady told her, I would be there November 17, 2017 at 9:00am at the Texas Medical Board. Nancy Elmudady advised me to call her when I arrive at Texas Medical Board and their parking ~~across~~ across the street, I said: will do. Nancy Elmudady advised me, when you check in Mrs. Stuppy at the front desk and they tell you go to the 6th floor, don't, cause that's where the doctors are, wait in the lobby Mrs. Stuppy, I will be right there, I said: ok.

First of all, Nancy Elmudady never once told me anything what is required at this board meeting. I thought I would read my letter and that was it, Nancy Elmudady knew that, Nancy Elmudady never told me this will be a court room trial or I could have attorney present or 10 minutes to speak and they time you. Never once did Nancy Elmudady indicate. She was a lawyer on the board, she lead me to believe she was an investigator on the case,

I was totally upset in the hearing, that I had 10 minutes and time me and seeing Dr. Charles Gregory only, 2-3 feet away in this meeting, was very upsetting, cause Dr. Charles Gregory contribute to the death of my daughter Jamie Howlett, age 39. After the meeting November 17, 2017, I was still in shock, left for airport to fly back home. Called Nancy Elmudady, I was so upset, that

I felt betrayed, felt deceived and I believe my rights were violated, Nancy Elmady spoke. I would have to wait on what the decision from the board, I told Nancy Elmady there was no way I could read my letter in 10 minutes all the information on my daughter's death Opemie Lynn Howlett age 39, contribute by one Dr. Gregory also N.P. Gloria Solis.

Then on February 28, 2018, Nancy Elmady calls me, to come out and speak, March 2nd 2018 before they make a final decision, I said, I will be there. Nancy Elmady said: I won't be there, but go to the 2nd floor and fill out paperwork on agenda 35 to be heard on final decision. I had said: I'll be there.

I flew out the next day March 1, 2018, very short notice on behalf of Nancy Elmady; but I would do it for justice for my daughter Opemie Lynn Howlett. When arrived at Texas Medical Center went to second floor, signed paper to be heard, then waited all day there, was the last one to be called. Called my name "Connie Stuppy" went to the board table sat down and started to speak and was interrupted by Michael Cokinos, saying Mrs. Stuppy I know it was hard for you to talk about your daughter's death, but the case is already settled. I said: I hope you took her licence, then everyone gets up to leave

and, I was present didn't hear a damn thing about Dr. Charles Gregory. When Sara Tutthill came up to me, said Mrs Steppy its not what you wanted, I said, oh lord, they really needed to take his licence, cause he needs another career, he is not a Doctor, Sara ask for my email address, so she can send me a copy of results, I ask Sara can I see the results know, Sara walked over to the panel and came back said she would have to e-mail the results. So, I gave Sara Tutthill my e-mail address and left.

I was so mad, that I really never got a chance with the Texas Medical Board to defend my daughter's rights and mine. Then receive in the mail this "Remedial Plan" that was signed on November 30, 2017 by D.O. Charles Gregory and I was so ticked off, that I read, Nancy S. Elmulady prepared this "Remedial Plan". Nancy Elmulady called me to come out March 2nd 2018 for final decision to speak, knowing nothing would change. This is pure evil on Nancy Elmulady, to do this me.

Medical Board failed to report establish violation, medical standards, the concerns here was fact that D.O. Charles Gregory was treating chronic pain for patient Jamie Lynn Howlett, by facts prescribing a habit forming / narcotic medication and not monitoring for 6 long years, every month consistent every month on intake and progress report of hydrocodone narcotic and Xanax (alprazolam). This

is evident by consistent every month for 6 long years that was not monitor by Dr. Charles Gregory.

grossly neglected, ^{by not} finding the root of Jamie Lynn Howlett's health issue, Jamie knew it was not mental, always turned away by Dr. Charles Gregory at N.P. Gloria Solis "results stress" by both Dr. R.W. Jamie Howlett knew her health issue were serious all she wouldn't be in Dr. Charles Gregory's office 203 times a month, then when Jamie Howlett had lost over 100 lbs, so weak, walking with a cane, then only decide to do a biopsy of the liver, Jamie Howlett's health issue was know after biopsy of the liver January 29, 2015, final decision: Two core right lobe liver mass, metastatic small cell carcinoma, the aggressive kind, given 2-5 year life span, Jamie Howlett lived 16 months and 13 days, 10 hrs and 5 minutes and the good lord took her to her eternal home, Board calls him a Doctor

How could someone, on one hand say that the medical records are indicated, the medication of hard core drugs (dangerous) drugs every month consistent for 6 long years was indicated, prescribed and not monitored, but say the documentation related and caused death of Jamie Lynn Howlett age 39, that was lacked sufficient documentation regarding Dr. Charles Gregory, his evaluation of patient dramatic weight loss, and his treatment of patient for chronic pain and anxiety, this is in violation of recognized standard care

And also the "Remedial Plan" code 164,00150 that Nancy S. Elmady prepared, typically cannot be offered and cannot be issued in instance where the complaint concerns a patient's death.

The Board findings are devastated, to aloud Dr. Charles Gregory to put his patients, present and future in mortal danger. D.O. Charles Gregory has 16 years under his belt and doesn't know signs of liver disease and etc. I question

I believe if I hadn't come out March 2nd 2018 this "Remedial Plan" for D.O. Charles Carter Gregory wouldn't been registered, I believe Texas Medical Board is corrupt and believe Texas Medical Board chose doctor's who play into the corporate medicine game of dressing, cutting, burning and killing. I believe they cover up truth for lies and take payoffs. All under their own protected self created regulations.

This Remedial plan, this is really strange so paying an admin. fee (Appears to be like a fine, payment penalty) that is not non disciplinary, really really odd. This is the price my daughter Jamie Howlett has paid for survival a terrible price 5 long long years, to be sure. My phone number is: 757-839-4915

Thank you Eric, where else can I bring attention to this and receive justice. Justice is not with Texas Medical Board.

Sincerely,
Connie Steffy
Have a Happy
Easter!!!
