Your Comments About the Staff Report, Including Recommendations Supported or Opposed: I know first hand that Radiation exposure needs to be regulated on a state level. Please have open discussions with ARRT and TSRT, and include NTRTS in these talks. The level of risk Texas will address without having regulations in place will be excessive.

Any Alternative or New Recommendations on This Agency:

I do not support any deregulation of the MRT Program in the State of Texas!!!

"Under the direction of certain healthcare practitioners, licensees administer radiation to other persons for medical purposes.

28,375 licensees"

I do not want these "licensees" being unregulated!

Please open discussions with ARRT and TSRT BEFORE making a decision on this matter.

My Comment Will Be Made Public: I agree
