Your Comments About the Staff Report, Including Recommendations Supported or Opposed: i believe the state board of plumbing test should not change, it is a very good test that focus on hands on and written. by going to a only written test or computer test dosent prove you can actually plumb, and so many people would get a license just by reading a book or take a prep class.
the main problem is funding to the board, if they were given more funding people would won't to work there and they wouldn't be short handed

Any Alternative or New Recommendations on This Agency: give the board more funding so they can make the pay competitive so people would want to work there. don't get rid of the current testing
