Your Comments About the Staff Report, Including Recommendations Supported or
Opposed: The need to sustain professional licensure to geologist is quite apparent, as the professional title promotes quality and honest work in specific industry situation. Quality and honest environmental reporting ensures good public health and safety and holds legal liabilities. In short, preserving licensure of Professional Geologists should be the Texas Sunset Advisory Commission's number one priority.

Any Alternative or New Recommendations on This Agency: Don't try and fix what's not broken.
