Your Comments About the Staff Report, Including Recommendations Supported or

Opposed: I am opposed to this because the MSU has helped out Texas sponsors to keep the cost down for the students. Not having to use their own bike, helmet, and paying more than \$250 for the class makes it easier and cheaper on the student. If the prices of the class go up, and students have to use their own bike and helmet, a lot of them will chance not taking the class and ride without a license because the ticket will be easier than licensing. Right now it is perfect for new riders wanting to try it out, riders needing licensing, and riders wanting to hone their skills. Please keep the MSU, because they are riders helping riders.

Any Alternative or New Recommendations on This Agency: If it's spending that's the problem, make a new budget that will help. Don't dissolve the program; make the budget better on every level: from student in class to the materials.

My Comment Will Be Made Public: I agree
