Your Comments About the Staff Report, Including Recommendations Supported or Opposed: Opposed to Issue # 3 regarding NCT & LMRT. Both of these permits should be abolished.

Any Alternative or New Recommendations on This Agency: Abolish licences for NCT and LMRT. I strongly oppose anyone one that is not a Registered Radiologic (RT) Technologist performing x-ray exams on anyone, especially children. Individuals who have NCT and LMRT permits do not have hours anywhere close to the hours of a RT. During my 28 yrs employment with Dept of State Health Radiation group, I have seen horrific images performed by NCT and LMRT alike. I have told my family to ask the person taking x-fays in their doctors office about their credentials and if they are told NCT or LMRT, refuse the exams.

My Comment Will Be Made Public: I agree
