Your Comments About the Staff Report, Including Recommendations Supported or Opposed:

Issue #5- Supported; the State needs to adopt a new definition of the practice of psychology as a result of the decision of the 5th Circuit Court.

Any Alternative or New Recommendations on This Agency: Alternative:
Issue #4- Opposed; the TSBEP should be maintained as the agency regulating the practice of psychology in Texas, including Licensed Specialists in School Psychology.

New Recommendations:
-Rename licensure from "Licensed Specialist in School Psychology (LSSP)" to "School Psychologist"
Rationale: This will eliminate confusion experienced by parents, educators, consumers, and the public.

-Ensure proportionate Representation of LSSPs on the TSBEP
Rationale: School psychologists represent 30% of the licensees regulated by TSBEP, but presently have half of one seat on the TSBEP board.

-Allow LSSPs to practice in private schools
Rationale: While this is currently prohibited, it will enable students in private schools to receive access to mental health services.

- Align State Law and Regulation for Practice to Reflect National Standards for the Practice of School Psychology
Rationale: As a matter of alignment, the state standards should be in line with the national standards.

-Ensure that LSSPs have a conferred degree in School Psychology or a Re-Specialization Certification from a School Psychology Program

Rationale: This will ensure those who seek to work with children are trained in this applied field of psychology.

-Remove the Prohibition of LSSPs Ability to Practice in Private Clinics

Rationale: This provides access to services for children who would not have access to mental health services.
